UNISYS
CLOUD SUCCESS BAROMETER™

GLOBAL

MAKE CLOUD CORE TO YOUR BUSINESS OR RISK FAILURE

Cloud Success Score:
out of **100**

GLOBAL	49
LATAM	56
USA	49
EUROPE	44
ASIA-PAC	43

1/3
of leaders fail to see improved organizational effectiveness from moving to the cloud

83%
of those for whom cloud is core to their business said organizational effectiveness changed greatly or moderately for the better

Organizations using third-parties to help with cloud transition are

27%
more likely to see increased organizational effectiveness vs. those that don't

Only

28%
of organizations are experiencing the benefits of multi-cloud platforms

Room for improvement?

% of business leaders whose cloud expectations not fully met for:

- Reducing headcount (38%)
- Managing or reducing costs (35%)
- Higher staff productivity (32%)

The Unisys Cloud Success Barometer rates how well cloud transformations have met expectations across six dimensions: revenues, costs, agility, competition, security and productivity.
